

SCOOTER AND VASSY, Radiate

Standing in a crowd of a thousand faces
People think I'm weird
But I'm holding aces
So don't look down
Everything you need is
Right here, right now
Just surrender to the buzz
If you feel it
Let it go, forget it all just be it
Radiate, radiate, radiate
That feeling
Radiate, radiate, radiate
That feeling...
You want it
You need it
I got it
That feeling

I'm getting wild
And I don't need the reason
I don't change
No matter what the season
So take a chance
Give it all you got
Got right here, right now
Just surrender to the buzz
If you feel it
Let it go, forget it all just be it
Radiate, radiate, radiate
That feeling
Radiate, radiate, radiate
That feeling...
You want it
You need it
I got it
That feeling
