

Scooter, I'll Put You On The Guestlist

I originate

You must appreciate, all the others imitate

Yeah!

You're my crowd and I want you tonite

I am sure this tune makes you feel right

No discussion, disturbing your mind

Feel the vibes leave those troubles behind

Five years now it's along time to go

Check our records that you still don't know

Get prepared for the next decade

Join the crew 'cause it's never too late

Yeah!

Yes!

Yeeeeahh,yeeeeahh

Come on

Here we go!

AAARRRRGGGGHHHH!

I'll put you on the guestlist

I'll put you on the guestlist

I'll put you on the guestlist

Yeah!

All right.

Right now: I originate, you must appreciate, all the others imitate

Yeah!

There is one thing that you have to learn

Our mission is we love the jam

Up on the stage or down on the floor

We can't stop we always need more

Five years now it's along time to go

Check our records that you still don't know

Get prepared for the next decade

Join the crew 'cause it's never too late

Come on

Yeah

I'll put you on the guestlist

I'll put you on the guestlist

Yes!

I'll put you on the guestlist

I'll put you on the guestlist

...Thank you!
