

Scorpions, Every Minute Every Day

(Rudolf Schenker, Klaus Meine)

Well it seems that I was lost
In intoxicated nights
Following the trace of ecstasy
With no future and no past
Just the present was alive
Like a prisoner chained on to a dream

I was drowning in a feeling
That obsession rules
'till the morning kills the creatures of the night
And I read your lipstick message
On the mirror of the truth
Now that you're gone I realize
Without you
Life's like a song without music
Without you
This world won't be the same

I need your love, every minute
I need your love, every day
I need your love, every minute
I need your love, come back and stay

Well I know that I was lost
In the nightmare of my life
Following the flash of fantasy
In a feeling that exploded
I'd left reality behind
Addicted to the power of a dream
Without you
Life's like that road that leads nowhere
Without you
The world won't feel the same

I need your love, every minute
I need your love, every day
I need your love, every minute
I need your love, come back and stay
