

# Scorpions, Love Is Blind

Close my eyes  
Didn't want to see  
Believe the lies  
You said to me

She played a game  
I played along  
But now I know  
I was not the only one

She treated me  
Just like a fool  
I was in love you  
Share my soul

The way you touched  
I never knew before  
Can't ask you out  
Don't close the door

I wanna feel you  
I wanna touch you  
I wanna feel you  
By my side

Love is  
Love is blind  
Don't you know  
It's a state of mind  
Love is  
Love is blind  
Love is blind, baby

Didn't know  
But you never life  
But something told me  
I was right inside

Things you said  
They felt so good  
They ask your brain was  
Oh was so cute

But then I got  
Behind your scene  
I wanna go  
But I can't leave

The way you touched  
I never knew before  
Can't ask you out now  
Don't close the door

I wanna feel you  
I wanna touch you  
I wanna feel you  
By my side

Love is  
Love is blind  
Don't you know  
It's a state of mind  
Love is  
Love is blind

Love is blind, baby

Love is

Love is blind

Love is

Love is blind
