

# Scorpions, Shoot for Your Heart

This is the beginning  
Hell's bells are ringing  
This is the start  
We came to shoot for your heart

Up and away far away  
Stayed up all night, slept all day  
The gang is back in town  
And the girls are melting down

Up and away, I've heard them say  
"Crazy spiders are on their way"  
Electrified from head to toe  
Fired up, ready to go

This is the beginning  
Hell's bells are ringing  
This is the start  
We came to shoot for your heart

Lights go down, the pulse goes up  
When baby, we're about to rock  
We live it up tonight, you bet  
I can sleep when I'm dead

Living free like a bird  
Heaven is a place on earth  
Can't find the door to say goodbye  
Maybe tomorrow but not tonight  
Not tonight

This is the beginning  
Hell's bells are ringing  
This is the start  
We came to shoot for your heart  
This is the beginning  
Losers are winning  
This is the start  
We came to shoot for your heart

Monday morning, I come crawling  
Out of my bed, the living dead  
Monday morning, voices calling  
Inside my head, just bring me back  
Just bring me back, just bring me back again  
Just bring me back

This is the beginning  
Hell's bells are ringing  
This is the start  
We came to shoot for your heart  
This is the beginning  
Losers are winning  
This is the start  
We came to shoot for your heart

Shoot  
Shoot, oh yeah  
Shoot (Shoot), yeah  
Shoot, shoot, shoot  
We came to shoot for your heart
