

Scorpions, This Is My Song

(Rudolf Schenker, Klaus Meine)

I can't believe what the people say
There's only hate everywhere
So many people go different ways
So many things don't you care

They see nobody, they see themselves
But a stage like in a show
They see the hell, and they need your help
They need your help, they need love, love

This is my song
I tell you about the story of love
This is my song
I tell you about the story of love

This is my song
I tell you about the story of love
This is my song
I tell you about the story of love

I think I need you, you need me too
The place where we live is here
The world is griping what can I do
For you and you everywhere

I sing this song 'bout the world of love
And hope you hear what I say
Forever freedom, forever love
Forever love everyday
