

Scott Krippayne, May I Have This Dance

Maybe it's your laughter
Maybe it's the magic of your smile
Maybe you're an angel
'Cause hope is always dancing in your eyes
I can't imagine a more beautiful girl than you
May I have the honor of sharing a melody or two

May I have this dance
May I lead you across the floor
May I take your hand
And spin you around and round once more
May I hold you close
Before this evening is through
May I have this dance with you

Do you hear the music
Do you like the way they play our song
Do you know how much I love you?
Baby, I could hold you all night long
So close to heaven
My dreams have already come true
I'll treasure this moment
'Cause I'm making a memory with you
