Scotty D., Flow (True Style)

Stand - If you will, right next to me Wrapped around, in the wind of eternity See - for yourself, the history Nature's way is boasting victory

Grab - The fruits of tomorrow From which the energy of life we borrow Taste - The weight of time The only weight is of glory and crime

Know this - How weak and petty we are In the grand picture we're grown afar Hey - we can't help it Greedy only in our requisite For love - you're very existence You're the source of my subsistence

Slow. Down. Take. Your. Time. And. Feel. The. Flow

Only if we watch together, everything bears a flow Only with you, do I wanna be part of the flow

Know this - How weak and petty we are In the grand picture we're grown afar Hey - we can't help it Greedy only in our requisite For love - you're very existence You're the source of my subsistence

Slow. Down. Take. Your. Time. And. Feel. The. Flow

Only if we live it can we keep up with this beat of the flow Only with you do I wanna fall into the flow

Only if we watch together everything, bears a flow Only with you do I wanna be part of the flow
