

# Scotty Don't, Over

There's no more time for me to walk the line  
No time to think that life is so divine  
Sometimes I'm torn and worn out past my blues  
But I'll keep on pushin' just payin' out my dues

If there's no sky  
How we gonna get high  
And how we ever gonna say  
Gonna say that we're never gonna die

I said if there's no sky  
How we gonna get high  
And how we ever gonna say  
Gonna say that we're never gonna die

It's over  
It never seems to start  
Until it all it all  
It all just falls apart falls apart  
And then it's over  
As the time keeps flyin' on flyin' on  
And all the people multiplying on multiplying on multiplying on  
And then it's over....

It's over  
No more to listen to now

It's over  
Keep on doin' what you're gonna do now

It's over  
Time to burn it on down again

It's over  
Try to make another friend before it's over

It's over
