

Scout Niblett, Sweet Heart Fever

sweet heart fever
standing over
when my smiles are made

sweet heart fever
taking over me
under starlight

and I, I won't lie in the way
of my smile getting the right attention

let it burn out, shining brighter
I'll find a place to play

sweet heart fever
take it, take it away
from this body

I won't lie in the way
of my smile getting the right attention
