

Scratchingpost, Master Of Action

If I could step in his shoes
Then I'd have all the rock moves
He plays it like no other
I know, I'll never met another like him

He's still a teenage super star
He was one from the very start
Born with the will to rock the world
Born with the skill to rock the girls

And when I see him on stage
It makes me smile all night
And when he's rocking on stage
He does it all so right

Master of action, he's our hero
Master of action, he's no zero
Master of action, he's the one
Master of action

He makes it look so easy
Controls the room completely
Fills us up with satisfaction
He's the master of the action

And when I see him on stage
It makes me smile all night
And when he's rocking on stage
It's perfect every night
