

# Scream Silence, Creed

Endearing poems of you  
Will wipe my faults away  
Your gently caress can  
Disarm my doubts of faith

And while you elsewhere fuse  
In nameless loathsome tales  
I plead for twilight come  
That brings me back my maid

: || Forever and ever  
Enslaved by your heart  
Forever my destiny  
And sometimes  
They try to tear us apart  
But never they break our creed
