

Screw, Baby?

"Vomit"
Even if I can come back in those days
I decline choice with a smile
Want to forget a day to shake with loneliness
It seems to be the weed which the public eye does not get
In 4x3 when I "stared" I hug the present pain
I turn to the top and will walk kagayaki chiribamete
I don't look back toward the back hoshi ni naretara ii na
"Vomit"
It's scary to contact a person
I escaped without watching eyes
I cover my ears and watch the ground
It's destiny of a masochist to change
In 4x3 when I "stared" I hug the present pain
I turn to the top and will walk kagayaki chiribamete
I don't look back toward the back hoshi ni naretara ii na
I turn to the top and will walk kaemiru koto wa nai
I don't look back toward the back mirai wo te ni kazashite
"Small" resistance Dispell depression
Kusareba ii sameta hibi
Kono basho ga owaru koto wa nai kimi no tame ni utau yo
