

# Scum Of The Earth, Little Spider

Little spider what will you do...  
When no ones there for you.....  
My little spider I'm here for you  
When no one cares about you....

I hear my spiders crawling  
Dying beneath me  
I hear my spiders crawling  
Please God help me  
Little spider...Please don't leave me  
Little spider...Please don't leave me

Please don't hurt my little spider  
I cannot live without her  
Please don't keep my little spider  
In her web...Deep inside you

Little spider  
Little spider

I hear you crying but I can't find you  
So please crawl out so I can see you  
I know your dying but I can't find you  
So please crawl out so I can save you

I hear my spiders crawling  
Dying beneath me  
I hear my spiders crawling  
Please God help me  
Little spider...Please don't leave me  
Little spider...Please don't leave me
