

# Seabound, Exorcize

You eat the time  
Spit out the seeds  
You're planting life

You speak the words  
Control the beat  
You're an agent of change

Send out the light  
Raging from the sky  
Refine my vice

Absorb my fears  
Brand me with your signs  
We are partners in crime

Exorcize - No choice but to believe  
I turn to you and close my eyes  
Exorcize - I will not suffer

Exorcize - Raise your voice not to deceive  
I turn to you and close my eyes  
Exorcize - Rage will do no better

You dull my mind  
You leave me blind  
Define my course

You're breaking news  
You are on the scene  
Our schedule is yours

You worked your way  
'Round the firewalls  
Reverse the time

Absorb my fears  
Brand me with your tears  
We are partners in crime

Exorcize - No choice but to believe  
I turn to you and close my eyes  
Exorcize - I will not suffer

Exorcize - Raise your voice not to deceive  
I turn to you and close my eyes  
Exorcize - Rage will do no better

Without choice but to believe
