

# Seabound, Scorch The Ground

Talk to me  
I need you to remedy  
My misery  
Comfort me  
It's time that you made up  
For what you've done to me

I am the crack of your voice  
(Static in the sound)  
I am the bias in your choice  
(Your lack of common ground)  
I am the shadow in the noise  
(Love never found)  
I scorch the ground  
I scorch the ground you walk on

Fight for me  
How could you expect  
I grant normality  
Die for me  
'Cause if we fail  
I'd rather see you cold  
Than live without me

I am the crack of your voice  
The static in the sound  
I am the bias in your choice  
I scorch the ground

I am the crack of your voice  
(Static in the sound)  
I am the bias in your choice  
(Your lack of common ground)  
I am the shadow in the noise  
(Love never found)  
I scorch the ground  
I scorch the ground you walk on
