

# Seabound, Soul Diver

Nevermind  
You just hurt someone you cared for  
You and I  
Separate lives I know  
Still I spy  
Though I know that it is over  
Nevermind  
This is how it's going to feel

Change your mind  
Act unpredictable  
It's effective  
Believe me - I  
Took control  
Felt the power  
Enjoyed the pain  
Pandorus

Nevermind  
I just hurt someone I cared for  
You And I  
Forever lost

When the hurting starts  
When the feeling stops - we die  
Yet summer comes  
No matter what I say

When the hurting starts  
When the feeling stops - we die  
Will you care for me?  
Soul diver - Trading life for identity

Nevermind  
You And I  
Believe Me...  
Believe Me...
