

# Sean Lennon, Into The Sun

And when the day is done  
I will follow you into the sun  
And after all my love  
I will follow you into the sun

All the tears you cry  
Will one day be dry  
And like birds we'll fly  
Up into the sky  
Our love will survive

And when the day is done  
I will follow you into the sun  
And after all my love  
I will follow you into the sun

All these days gone by  
Just like waves roll by  
I can't wait to hold  
You inside my arms  
Our love will survive

And when the day is done  
I will follow you into the sun  
And after all my love  
I will follow you into the sun
