

Sebadoh, Bird In The Hand

All washed down the drain, all washed down the drain
Take it home with you
I don't know what to say to you
But I know how it can be
Drop to the whisper, and take it while you can
It's only a little bird in the palm of your big hand
Racked my brain and now I'm confused as hell
I don't know what you want
If it's all the same, I think I'll go on home
Droppin' a whisper, and take it while you can
It's only a little bird in the palm of your big hand
No one can change
You can't change
