

# Secondhand Jive, Lucky

Well I gotta call you lucky  
Cause all I can think about  
Is what to do with all of your charms.  
Well I know you think it's not enough  
But I could never give it up  
Since I had the lovin' you show

Well I place my bet no matter the line  
Well I pick a winner every time  
Well lucky always gets me home  
Yeahh with lucky near I cant go wrong

Well I gotta call you lucky  
Cause all I can think about  
Is all the love you've given so far  
Well I know you think it's not enough  
But I could never give it up  
Since I've had a taste of your wine.

Yeahh Well I place my bet no matter the line  
And I pick a winner every time

Well lucky always gets me stoned  
With lucky near I cant go wrong

No I can't

Common lucky

Listen  
I'll place my bet no matter the line  
And I pick a winner every time  
Well lucky always gets me stoned  
With lucky near I cant go wrong
