

Secondhand Serenade, Tested And True

Superstitions arent meant for lovers
Under covers, undiscovered is your skin
I am lonely, please let me in
Youre probably wondering what I was proving
Are you choosing?
Am I losing you tonight?
Is it over, over?

Are we fading?

[Chorus]
I never wanted anything the way that I want you
But my words dont seem to matter
My words dont seem to matter
And you look at me and I can see
The lies youre running too
But my words dont seem to matter
Id rather have you tested and true

Now youve had your chance
So lets try my way, its my day
To show you what youre missing, turn around
And feel the winds of change upon your face again
The warm breath of your closest friend
Im waiting, Im waiting

Are we fading?

[Chorus]
Im scared well fall apart tonight
Under the moonlight
Under the moonlight
Im scared well never make it right
Under the moonlight
Under the moonlight
Take my hand and hold it tight
Hold it tight

[Chorus]
