Secondhand Serenade, Tested And True

Superstitions arent meant for lovers Under covers, undiscovered is your skin I am lonely, please let me in Youre probably wondering what I was proving Are you choosing? Am I losing you tonight? Is it over, over?

Are we fading?

[Chorus] I never wanted anything the way that I want you But my words dont seem to matter My words dont seem to matter And you look at me and I can see The lies youre running too But my words dont seem to matter Id rather have you tested and true

Now youve had your chance So lets try my way, its my day To show you what youre missing, turn around And feel the winds of change upon your face again The warm breath of your closest friend Im waiting, Im waiting

Are we fading?

[Chorus]

Im scared well fall apart tonight Under the moonlight Under the moonlight Im scared well never make it right Under the moonlight Under the moonlight Take my hand and hold it tight Hold it tight

[Chorus]
