

# Secret & Whisper, XOXOXO

Stormy and windy night  
Remind me of you tonight  
You're wild and fragile  
You know the city where I come from  
The secrets I'm never telling anyone

Machinery, don't fail me  
I'm fixing these things  
As they're falling apart

She's drawing X and O's  
Into her pantyhose  
You know the city where I come from  
The secrets I'm never telling anyone

Machinery, don't fail me  
I'm fixing these things  
As they're falling apart

We were walking to the corner store  
When she'd cry and start to hide  
We were talking about the dinosaurs  
And how they died  
And how they died

Machinery, don't fail me  
I'm fixing these things  
As they're falling apart
