

# Seeds, Now A Man

(Sky Saxon/Daryl Hooper)

Come on along and go with me

Back into your dreams

Come on along and go with me

Travel to your time

Take you anywhere at all

Said come on back and see the Nile

Said come on along and dream with me

Back in history

Back a century

Back to dreams with me

March, maarch, march with me

Past the crooked forest

Through the field of flowers

Away from all the dragons

Where the sky is painted golden yellow

Come on along and go with me through the fairy castle now

Come on along and go with me

Back when you were a child

Marching through the flowers

Playing all the while

Child of yesterday

The world began its dream for man

A circus filled with love and clowns and animals

Playing round and round

Out there

---
