

# Selena, Sentimientos (English Translation)

"Feelings"

---

Please remember! This translation is my personal work. It is sometimes difficult to translate word for word.

---

Feelings that I carry with me  
are already driving me crazy  
I wish I could be in your arms  
even though it was only once in a while  
Chiquitito\* of my life  
Don't go drifting away  
I carry you here in my heart  
You're the only thing I'm thinking about  
I pass the nights crying  
Because I want, because I want to be with you

\*Chiquitito comes from chico and might be translated as "little boy," but that sounds too
