

Selfmindead, Into The Fire

I reach out for the eternal flame
The fire that cleanses and heals and strenghtens
The fire that will forever burn

The flame is weak in my heart To weak to maintain
The fire is fading out Turning into ashes
Relight me tonight
May the fire burn in me
Forever

I place my heart into the fire
To cleanse my soul is my desire
I place my heart into the fire
To heal my soul is my desire

Fire-Burn-Fire-Burn

I place my heart into the fire
To strenghten my soul is my desire To burn out all the demons
To be free Forever
