

# Selin, Cool

She gets uncomfortable when I'm in the room  
Won't put the blame on her  
Cause that's on you

Calling me to tell me all the things you like  
Does she even know you do this every night?  
Please don't get me wrong don't wanna start a fight  
Because I don't even like you like that.

But I thought we were cool (coo-ool)  
It's hard to be friends with someone who has feelings for you  
When we were together you promised that we'd never be  
Somebody I'd regret I wish we never met  
So baby it's the end  
But I thought we were cool (coo-ool)  
Now I don't recognise you  
I don't recognise you

You changed your ways so faast  
It's kind of sad  
And all our friends agree  
That you're not the same man

Calling me to tell me all the things you like  
Does she even know you do this every night?  
Please don't get me wrong don't wanna start a fight  
Because I don't even like you like that.

But I thought we were cool (coo-ool)  
It's hard to be friends with someone who has feelings for you  
When we were together you promised that we'd never be  
Somebody I'd regret I wish we never met  
So baby it's the end  
But I thought we were cool (coo-ool)  
Now I don't recognise you  
I don't recognise you

You're gonna wish you never left a friend you loved  
And all the nights you're with her I know you'll be thinking of us

But I thought we were cool (coo-ool)  
It's hard to be friends with someone who has feelings for you  
When we were together you promised that we'd never be  
Somebody I'd regret I wish we never met  
So baby it's the end  
But I thought we were cool (coo-ool)  
Now I don't recognise you  
I don't recognise you
