

Semisonic, Made To Last

Made to last awhile
And roll on
Made to move in style
And move along

Made to dream of flying
So high
Made to wake up crying
I don't know why

Beautiful one
Asleep in the sun
Secret, sweet & sublime
I hope you last a long, long time

Made to come alone
And pair up
Flash like a rolling stone
Seventy-one

One time love affair
With the earth
Waiting on the air
For some re-birth
(For what it's worth)

Wherever you are
Nearby or far
Black, white, lemon or lime
I hope you last a long, long time
