Semisonic, Made To Last

Made to last awhile And roll on Made to move in style And move along

Made to dream of flying So high Made to wake up crying I don't know why

Beautiful one Asleep in the sun Secret, sweet & Dime I hope you last a long, long time

Made to come alone And pair up Flash like a rolling stone Seventy-one

One time love affair With the earth Waiting on the air For some re-birth (For what it's worth)

Wherever you are Nearby or far Black, white, lemon or lime I hope you last a long, long time
