

# Semisonic, She Spreads Her Wings

At night she spreads her wings  
She dreams of bigger things  
She floats above the town  
She sings without a sound

She can be anywhere at all  
She can be anyone at all

A glow and then a shine  
What she hoped she would find  
Tonight, tonight

She's got a picture in her mind  
She can be anyone at all

At night she changed her mind  
She left the world behind
