

Sense Field, Untitled Demo

I'm the only one to miss you
gonna miss our days
I'm the only one to miss you
gonna miss our time

if I could get inside of you
keep you strong
within the light
this world will feel our love

just know I'm really gonna miss you
gonna miss our nights
just know I'm really gonna miss you
gonna miss our time

if I could get inside of you
hold your heart
up to the light
this world will feel our love

cause I can still feel your love all around me
and I can feel your love all around the world
and I can still feel your love all around me

just know I'm really gonna miss you
gonna miss our times
know I'm really gonna miss you
gonna miss our nights

if I could get inside of you
hold your heart
up to the light
this world will feel our love...
