Sentenced, Desert By Night

Yes, I am here Here at the landscape of my dreams And whats this perfection? I feel immortality next to me

I have lived my life in your arms, mother now Im back to show my gratitude Take my life, I know that Im worth of you And III live again and I will live through the Elk!

Now speak, Serpent, with my tongue
-tell them what you think
-infiltrate the venom in their veins
Brother Wolf, take my mind, use my hands for thee
and lead the way to Hall-up-high
- take their lives

Take back what is yours! Ive set this sacrifice

(and now we dance here in this circle of flames We praise Your Might We praise Your power to liveyeah)

Fresh as the North Wind You blow right to my heart Warm as the South Breeze my blood now covers the sand (and on we die!)

We have lived our lives in your arms, mother Now were back show our gratitude Take our lives, if you think were worth of you and we will live again among the sheep as the Wolves!

Now speak, Hedgehog, with my tongue -tell them what you want and take revenge for a million lives

Sister Swan, spread thy wings, your enemies are mine and let live those who are worth of you

- -taste our minds
- -taste our minds
- -taste our minds
- -taste our minds
