

# Sentenced, Ever-Frost

The accusations and the blame...  
True or false, they seem the same  
Filthy fingers rise in rows  
And out of shit a flower grows

I'm amazed how damn low people can go only by being themselves

Those with hearts of ever-frost  
Will always know we never lost  
Flames rose high... Not enough to melt the ice  
Tiny minds and virtuous whores  
A bunch of morons with a cause  
Jesus saves? - We will piss upon your graves!

Three wise men came to the north  
On their donkeys they rode forth  
Whining I'd committed sins  
Moaning I'm too everything

Still amazed how a whole trio of men can have only two brain cells

Those with hearts of ever-frost  
Will always know we never lost  
Acid rain: Urine on your flames  
(Urine on your flames, Urine on your flames)

Those with hearts of ever-frost  
Will always know we never lost  
Flames rose high... Not enough to melt the ice  
Tiny minds and virtuous whores  
A bunch of morons with a cause  
Jesus saves? - We will piss upon your graves!

Placid rain: Urine on your graves
