Sentenced, Ever-Frost

The accusations and the blame... True or false, they seem the same Filthy fingers rise in rows And out of shit a flower grows

I'm amazed how damn low people can go only by being themselves

Those with hearts of ever-frost Will always know we never lost Flames rose high... Not enough to melt the ice Tiny minds and virtuous whores A bunch of morons with a cause Jesus saves? - We will piss upon your graves!

Three wise men came to the north On their donkeys they rode forth Whining I'd committed sins Moaning I'm too everything

Still amazed how a whole trio of men can have only two brain cells

Those with hearts of ever-frost Will always know we never lost Acid rain: Urine on your flames (Urine on your flames, Urine on your flames)

Those with hearts of ever-frost Will always know we never lost Flames rose high... Not enough to melt the ice Tiny minds and virtuous whores A bunch of morons with a cause Jesus saves? - We will piss upon your graves!

Placid rain: Urine on your graves
