

September, Get What You Paid For

It's raining in your face
But the sun is all around
Get onboard a plane where it keeps it on the ground
You try to fall asleep, keep falling out of bed
It's on the tip of your tongue, but it never leaves your head
chorus:

Everywhere you go is never better as you regret it
You never get what you paid for
Everything you do you never make it cause you can take it
You never get what you paid for
nananananana nanananana nananananana
nananananana nanananana nananananana
You meet somebody new
Time to get a life

Cooking for two and meet Charles up with his wife
It's moments people said; Your name is like a curse
If somethings really bad, you can always make it worse
Chorus

Everywhere you go its never better as you regret it
You never get what you paid for
Everything you do you never make it cause you can take it
You never get what you paid for
nananananana nananananana nananananana
nananananana nanananana nananananana
Behind you love, you come when they go
You'r fallin, crawlin forever
nananananana nanananana nanananana
nananananana nanananana nanananana
Chorus

Everywhere you go its never better as you regret it
You never get what you paid for
Everything you do you never make it cause you can take it
You never get what you paid for
nanananana nanananana nanananana
nanananana nananananana nanananana
