

# September, Never give it up

La la la la la la la, la la la la la la,  
La la la la la la la, la la la la la la  
Living inside and waiting for the night,  
Living it up when someone against the light,  
My body would go where music goes, where I can lose control  
Never gonna give it up, I never wanna stop  
never ever give it up, I never give it up  
Never gonna give it up, I never wanna stop  
Never ever give it up, I never give it up  
La la la la la la la, la la la la la la, la la la  
La la la la la la la, la la la la la la  
Taken me in and begin for some more,  
spinning around and slow across the floor,  
I'm gonna be where music shows, colour of every soul.  
Never gonna give it up, I never wanna stop  
never ever give it up, I never give it up  
Never gonna give it up, I never wanna stop  
Never ever give it up, I never give it up  
La la la la la la la, la la la la la la, la la la la  
La la la la la la la, la la la la la la  
In the night I'm never only  
I'm outside, I've never only, never only  
ohh yeeah  
Never gonna give it up, I never wanna stop  
never ever give it up, I never give it up  
Never gonna give it up, I never wanna stop  
never ever give it up, I never give it up  
La la la la la la la, la la la la la la, la la la la  
La la la la la la la, la la la la la la
