

September, Sound Memory

I'm gonna turn it on up
And let the sound be your memory
The sound be your memory of this night

You better believe this is lucky day,
I promise
You hook up with me
and I'll blow you away, no worries
And you will never be alone
as long as you remember
As you remember
AS you remember me

I'm gonna turn it on up
And let the sound be your memory
The sound be your memory of this night

The queen of the night
and the princess of summer loving
The meaning of life,
I'm the answer to al your problems
I'm on a mission to make sure
you always will remember
You will remember
You will remember me

I'm gonna turn it on up
And let the sound be your memory
The sound be your memory of this night

Turn it up, turn it up
I know you're living for the motion
Turn it up, turn it up
I know you're dying for emotion
