

Sepultura, Amen

Forgive me father
Forgive me God
I know i've sinned
With no remorse
Apocalyptic visions
Went through my head Here today

Gone tomorrow
It's all insane
I'm feeling sick
I'm feeling numb
The storm will come
In the name of God i'm the chosen one

Terror raids the land
To ashes we'll be sent
In the name of God Lives cast away

Martyrdom of myself
Armageddon comes
In the name of God Not one more dead

Fire blasting, cutting edge
Children burn in flames
In the name of God We're going insane

Let us die
You don't realize
This is the time
God's sacrifice

Leaving behind
Lessons in hate
In the name of God We're all dead
Burn!
