

Sepultura, Crown And Miter

There is a way out,
there is a way out

It took along time to get where we are
It wasn't easy but it never is
Big steps keep moving on
I have my own two feet don't need you to walk for me

There is a way out,
there is a way out

There were differences between you and me
There are things that I am just starting to see
Powerless! What does that mean?
Who has contorol over everything?

I had learn, salvation
To find my place in the world we live
I had to have, compassion
To understand that I have to give

There is a way out,
there is a way out
Salvation!!
