

Sepultura, Dusted (Demo Version)

You make me mute
Hidding the truth
Revealing a farse
Created by your mind

What do you expect
Exposing your lies
Printed in your eyes
There's no alibi

To cooperate and not be allowed
They're killing my name / sewing my mouth

Prospect in life
Lost in the line
To cooperate
And just be alive

You gonna fall hiding the truth
You gonna crawl finding the truth
To blame myself it's my disgrace
To blame the world by my mistakes

Dusted [3x]

Turn around and turning around
And turning around and sinside out
Turn around and turning around
And turning around and inside out

Do not disturb !
Leave me alone
The fear within inside and beyond
The fear within inside and beyond

You make me mute
Hidding the truth
Revealing a farse
Created by your mind

What do you expect
Exposing your lies
Printed in your eyes
There's no alibi

You gonna fall hiding the truth
You gonna crawl finding the truth
To blame myself it's my disgrace
To blame the world by my mistakes

Dusted [6x]
