

# Serenity, All Lights Reversed

The Prisoner:

At the edge of nowhere  
I cannot sense a move of time anymore  
The device I'm caught in  
Holds this venom I'm waiting for  
I am all alone  
And all is gone I ever lived for  
What is left are memories  
And they'll become a legacy

Oh these prison walls resound the voices in my head  
Desperate voices crying my love is dead  
Knowing her I realized what I was living for  
I should have saved you, now I'm broken to the core

(Chorus:)

Darkness and coldness, all passed living her way  
Facing all fearless this blindness that led us astray

I saw her wounds, I felt the pain that she was going through  
I was right there but there was nothing I could do  
They had their games, she died in flames  
My world was dying too  
I should have saved you, now I'm falling deep into

Chorus

The Choir Of Souls:

She made us be  
Made us see  
A higher empathy  
We are one  
We are free  
The cross is history

Chorus 2x
