

Sergey Lazarev, Do Me Right

verse 1

When the lights are down, and youre close to me
oh I lose my mind in a fantasy
higher and higher, up in the sky
burning desire well do it tonight
Hero in my dream youre my destiny

chorus

Get on and do me right, under the stars tonight
I wanna feel you and touch you and hold you tight
come on and play with me, just feel my energy
I really want it I need it come do me right

verse2

gotta show you how gonna lose control
love is all around, feel it in your soul
higher and higher, up in the sky
burning desire well do it tonight
I will make you scream, its no fantasy

chorus

Get on and do me right, under the stars tonight
I wanna feel you and touch you and hold you tight
come on and play with me, just feel my energy
I really want it I need it come do me right

do me right just do me right
right, go get on and do me, right
