

# Sergey Lazarev, Nobody Told Me

## Verse 1

Just when I had it all  
Something kept me questioning  
I knew there must be more  
In the space I was living in  
So you run, standing still  
Promise to write, but you never will  
So strong and so unsure  
The more I learn, the less I know

## Chorus

Nobody told I could fall  
I never knew this place at all  
Nobody showed the road to take  
Guess I got lost along the way  
How could I miss the signs  
Looked up the truth but closed my eyes  
Everything in my heart I thought I knew  
Nobody told me that it was you

## Verse 2

Now that I'm trying to forget  
All the years of emptiness  
I'll always be living in regret  
For all the words I never said  
I held you close  
As you walked by  
Into my heart but out of my life  
How could I let you go  
When you're all I need to know

## Chorus

Nobody told I could fall  
I never knew this place at all  
Nobody showed the road to take  
Guess I got lost along the way  
How could I miss the signs  
Looked up the truth but closed my eyes  
Everything in my heart I thought I knew  
Nobody told me that it was you

## Bridge

Nobody told me that you felt the same  
Nobody told me till I knew  
It was too late  
Tell me something I don't know

## Chorus

Nobody told I could fall  
I never knew this place at all  
Nobody showed the road to take  
Guess I got lost along the way  
How could I miss the signs  
Looked up the truth but closed my eyes  
Everything in my heart I thought I knew  
Nobody told me that it was you

## Bv

Nobody told me  
Nobody warned me  
Nobody said there won't be you  
Nobody told me  
Nobody warned me  
Nobody said there won't be you
