

# Sergio Galoyan, Paradise (ft. Lena Katina)

Something that I like  
Is something that I want  
I could never be the one  
I could never be alone  
Cause nothing really feels  
Just like you and me together  
Flying through the sky  
Every time you're next to me  
I've been hiding all my life  
I've been hiding now I'm free  
Please don't let it fade  
Let's just try to make this last forever  
All I ever wanted to do  
Is to be your light  
On your way to a paradise  
On your way to a paradise  
Anywhere you wonder to  
I'll keep it safe and bright  
On way to a paradise  
On way to a paradise  
Show me what you want  
Can you show me what you like  
I don't wanna to be alone  
You are everything I got  
This feeling is so strong  
Every second that we spend together  
Something in the air  
Wide awake I fall asleep  
Can you show me that you care  
As I wake up in a dream  
Run away with me  
Run away with me  
Forever  
All I ever wanted to do  
Is to be your light  
On our way to a paradise  
On our way to a paradise  
Anywhere you wonder to  
I'll keep it safe and bright  
On way to a paradise  
On way to a paradise  
I wanna, I wanna be with you  
Now I wanna, I wanna, I wanna  
Hold you right now  
I wanna, I wanna, I wanna  
Be with you now  
And I feel so free  
No one else but we  
Hold me strong  
Please hold on  
Don't let go  
Don't let go  
Don't let go  
Don't let go  
I'll be right here  
I'll be right here  
All I ever wanted to do  
Is to be your light  
On our way to a paradise  
On our way to a paradise  
Anywhere you wonder to  
I'll keep it safe and bright  
On way to a paradise  
On way to a paradise
