

# Serhat Durmus, Stay

It only took a second to fall down  
All the pieces blown away  
And scattered on the cold hard ground  
Was there something I couldn't have said  
Was there something I couldn't have done  
Or was it broken all alone  
It only took a second to fall down

Can't you stay with me at night

Without you is a place I just can't be  
Like the final lights come out  
And it's getting darker honestly  
As I think of all those things you said  
I remember all the things I've done  
Wonder if you were the one  
Can't you stay with me  
Stay with me

Was there something I couldn't have said  
Was there something I couldn't have done  
Or was it broken all alone  
It only took a second to fall down

Can't you stay with me at night
