

Serra Eric, Child Of Babylon

When I tell you "you look great"
I don't mean a word I'm saying
I'm a child of Babylon
In fact I think you look like a witch
You look like a virtual silicon bitch
"So nice to meet you"
Well at least this is no lie
For a child of Babylon
'Cause for the things I have in mind
You look like the perfect love of my... night
Child of Babylon
Overwhelmed with fantasy
I've got my red beamer
I've got my membership number
I'm in a cellular... cell
I'm a child of Babylon
When I tell you how much I missed you
I don't even fear the whopping lie
I'm a child of Babylon
In fact you're like mist in the list
Lost in the ghost of libido's twilight
Let's get together
I've a brand new kiddy lack
I'm a child of Babylon
That's why I'm telling you I can't wait
Because I hate staying all alone overnight
Child of Babylon
Overwhelmed with fantasy
I've got to fake it all day
I've got to simulate it all night
When I tell you "God bless you"
I don't mean a word I'm saying
I'm a child of Babylon
If you could get the hell out of here
Then I could get back to the heaven of last night
Child of Babylon
Overwhelmed with fantasy
I've got my red beamer
I've got my membership number
I'm in a cellular... cell
I'm a child of Babylon Child of Babylon
Overwhelmed with fantasy
I've got my red beamer
I've got my membership number
I'm in a cellular... cell
I'm a child of Babylon Child of Babylon
Overwhelmed with fantasy
