

Sertab Erener, Breathe In Deeper

Boy I've got a bad itch to scratch tonight
I'm looking at you thinking that you might be right
I'm seeing sings - you've got the ringt effect on me
Later on I'll give the final 'lust exam'
So you can let me know why you should be the man
Whom I should let kiss this and that of me

Let's find a place where
The lights are dimmer
The heat's on simmer
Where I'll decide if we'll be...

One on One together
Yes or no - an answer
If your touch can make me
Breathe in deeper
Step by step - move closer
I will grade you higher
If you make me wanna
Breathe in deeper

Every move you make tells me this is it
I may have found the one I wanna get deeper with
The one who'll make my body feel in harmony
But I don't know if I've been seeing straight or bling
So I've gotta make sure you stay in line
Until I know exactly what this means
