

Sertab Erener, Da?lar Da?lar (Mountains)

The one that I helped grow in my hands
The one that I revived with the sun,
You plucked my flower
And gave it to someone else
You plucked my flower
And gave it to someone else

refrain:

Mountains, mountains
Please, give me way I'm going to pass
For the last time let me see the one I love up close
Mountains, mountains
Please, give me way I'm going to pass
For the last time let me see the one I love up close

The birds won't sing, the roses have wilted
The noble mountains have turned to smoke
It's obvious that wherever you've gone
There's dark news.

It's obvious that wherever you've gone
There's dark news.

repeat refrain

Mountains, mountains (mountains, mountains)
For the last time let me see the one I love up close
For the last time let me see the one I love up close
