

# Sesame Street, Big Blue Marble

The earth's a Big Blue Marble  
When you see it from out there  
The sun and moon declare  
Our beauty's very rare

Folks are folks and kids are kids  
We share a common name  
We speak a different way  
But work and play the same

We sing pretty much alike

Enjoy spring pretty much alike  
Peace and love we all understand  
And laughter, we use the very same brand

Our differences, our problems  
From out there there's not much trace  
Our friendships they can place  
While looking at the face  
Of the Big Blue Marble in space
