

Sesame Street, Seasons

It's springtime

Leaves sprout and grass grows and birds start to sing

Walk in the park, take a ride on a swing

In springtime

Then comes summer

Sun is hot, grass is green, there is no school

Bathing suits, lemonade, swim to get cool

In summer

Then comes autumn

Red and gold leaves fall from trees every day

School starts and summer birds all fly away

In autumn

Then comes winter

Snowmen and snowballs, cold hands and cold nose

Bright frozen icicles, heavy warm clothes

In winter

Then comes springtime, then summer,

Then autumn, then winter,

And then it's springtime again
